

JEREMIAS EXHAUST SYSTEMS

HISTORY

Jeremias was established in the 1970's and was dedicated to chimney relining. In 1984, Jeremias began manufacturing stainless flue and chimney systems.

As a family-owned company, Jeremias has numerous locations across Europe while maintaining a US location in Marietta, Georgia as well as an R&D facility in Logan, Ohio.

SINGLE WALL

Single wall models SWKL & SWFL are used for relining and/or the connecting of pipes. SWKL has a conical design which allows the installation to be silicone & gasket-free. This model can also be cut to length in the field, making installation a breeze. SWFL is the flanged model which provides an overlapping joint for better leak protection. Both models have a lifetime warranty, are leak proof at the joints, and are 100% stainless steel.

DOUBLE WALL

Double wall models DWKL & SWKL also come in a conical or flanged design. Their insulated design allows for low and human-safe skin temperatures. It also reduces the clearance to combustibles.

Like their single-wall counterparts, all double-wall models have a lifetime warranty, are leak proof, and are 100% stainless steel.

COMMERCIAL KITCHEN

S Commercial kitchen models SWCK & DWCK are available in a single or double wall design. This newer model features a patent-pending light weight technology and double female socket, allowing for quick alignment and installation.

GAS VENTS

SWKL Gas vent models SWGV and DWGV have single-wall and double-wall designs. These vent models were designed specifically for the condensing boiler market allowing for easy assembly. A conical joint design seals a male-to-female connection and is secured with a locking band. Model Ecco is a Type-B gas vent model used for natural gas or propane appliances.

ENGINEERING SERVICES

Jeremias offers numerous engineering services to help maximize your system:

- Static pressure calculations
- 2D/3D CAD drawings
- Revit content
- Computational Fluid Dynamics (CFD) Analysis
- Finite Element Analysis (FEA)

PRODUCTS

Single Wall

- SWKL "Konical"
- SWFL "Flanged"

Double Wall

- DWKL "Konical"
- DWFL "Flanged"

Commercial Kitchen

- SWCK
- DWCK

Gas Vents

- SWGV
- DWGV
- Ecco

FEATURES

- Lifetime warranty
- 100% stainless
- Leak proof!
- Easy installation
- Field-cuttable
